Dear Ray:

I'm certainly happy to take a moment to thank you and Signtronix for manufacturing such wonderful signs.

We purchased four of your electronic window signs in 1991 along with four of the interchangeable panels. Your salesperson saying your window signs would attract attention and business was an understatement. We had **BALLOONS TO GO** on one sign and during the first week, the increase in the balloon business was so great I had to take the sign out of the window as I could not handle all the increased business!

The four signs are still working great after all these years, and we have just ordered and received four new sign panels to advertise new and different products we have. Ray, they are beautiful! Thank you for your fast and courteous service.

Sincerely,

June C. Tichy

The four new sign panels we ordered:
