Dear Signtronix:

Thank you Wes Shealy for taking such good care of us. We love our new out-door digital electronic message center. It has had a profound impact on our business. We have noticed a considerable increase in our daily volume of customers since we installed it just a few months ago. I was impressed by the number of compliments we received with regards to how informative the time and temperature. Our customers enjoy knowing what's happening with the weather and of course national events like 9-11. I would recommend this awesome communication center to any business owner that is aggressive or forward thinking. Thanks again for the wonderful customer service.

Sincerely,

Penny Hamm
