Dear Signtronix:

I purchased my original sign in 2001. In 2007 during work on I-35 an 18 wheeler full of hot asphalt struck my sign, and basically destroyed it. ***My business dropped 100%***. My regular clients were calling to see if I was still open. But the story has a happy ending. Because of your ten year guarantee on the panels (and a settlement with the construction firm) I was able to replace my 6 year old sign.

The "Are you still in business?" calls have stopped and I had 5 new customers within days of my sign going back up.

Thanks for helping me!

Mother Hanna
